

OBJECT LESSON OR KIDS SERMON

ITEMS NEEDED:

A list of school supplies

Bring in a list of school supplies for one of the local schools. Ask if any kids in the group attend that school and read off the supply list. Do they have these items ready to go?

Every year, there are new and different school supplies added to our list, but some items never change. We always need pencils, paper, erasers, scissors, and other must-haves, whether we are in Kindergarten, third grade, or middle school. One thing we also need to “pack” is the Word of God. Whether you have room for a Bible in your book bag or not, you can pack as many verses as you want in your memory banks to always have with you.

We usually encourage you to memorize one verse with every lesson series, but today we want you to strive to learn three. These verses – Joshua 1:9, Colossians 3:23, and Philippians 4:13 – will remind you to lean on God, work hard, and do everything for God’s glory this school year. We hope you will pack them in your minds and review them daily as you not only do your school work, but do the work God sets before you.

Every school year has its challenges, but God’s Word can help us to face those challenges. Learn these Back to School verses, and prepare yourself for the best school year yet!
